PROFESSIONAL SUMMARY

UI/UX Designer and Front-End Developer with 2+ years of experience supporting the design, analysis, and development of user-centered digital products. Strong background in translating user needs and business requirements into intuitive, accessible interfaces. Experienced in collaborating with cross-functional teams, analyzing usability feedback, and contributing to product improvements using HTML, CSS, JavaScript and React.

WORK HISTORY

Front-End Developer / Graphic Designer June 2023 - Present

Target Marketing Group, Owings Mills, MD

- Design and develop responsive eCommerce webstores using HTML, CSS, JavaScript, and React, focusing on usability, accessibility, and customer engagement.
- Collaborate with clients and internal stakeholders to gather requirements, identify pain points, and deliver user-centered UI solutions aligned with business goals.
- Create wireframes, visual mockups, and product dashboards to support design decisions and communicate concepts to stakeholders.
- Incorporated client feedback to refine page layouts and improve overall usability

Developer Intern July 2022 - June 2023

Kurrent Logic LLC, Washington, D.C

- Supported the design and development of a competitive workout training application using React, PowerApps, and JavaScript, improving usability and user engagement.
- Integrated front-end interfaces with APIs and automated workflows using PowerApps and Power Automate.
- Created intuitive UI components and layouts to improve user experience and engagement.

Academic Projects - Computer Science & IT Jan 2021 - May 2023

Towson University, Towson, MD

- Developed interactive websites and database-driven applications using JavaScript, Python, and MySQL.
- Created a responsive web app prototype simulating a scheduling and inventory system, incorporating usability and workflow considerations.
